DRiBOX™

CONNECTIONS MADE SIMPLE

THE ORIGINAL WEATHERPROOF POWER CONNECTIONS BOX

IN 2008 WE IDENTIFIED A GAP IN THE MARKET FOR AN AFFORDABLE AND EASY TO USE WEATHERPROOF CONNECTION BOX

The solution of wrapping an extension reel in a 'bin bag' was the choice for many, prior to the launch of the DRiBOX. Today this seems ridiculous as our DRiBOX offers a cost effective way of safely housing an electrical connection.

The DRiBOX was originally designed as an accessory for Christmas lighting, however today we have many markets for the DRiBOX. The main sectors include:

- AQUATICS
- GARDEN APPLIANCES/TOOLS
- CHRISTMAS LIGHTING
- GARDEN LIGHTING
- HARDWARE

The DRiBOX retails in hardware stores, garden centres, electrical stores and is used by landscapers, installers and Local Authorities.

We are seeing a continual growth in demand for the DRiBOX and are confident that this is due to its unique, innovative and simple design.

3 SIZES

- MODEL 200
200 x 90 x 90 MM
- MODEL 285
285 x 150 x 110 MM
- MODEL 330
330 x 230 x 140 MM
